

# CYRIL NERON

## IT Governance & Digital Transformation Leader

IT Governance and Digital Transformation professional with over 10 years of experience in IT Strategy, IT Governance and IT Infrastructure Management in mission-critical and international environments. Proven track record in IT-Business Alignment, Cybersecurity Governance, Infrastructure oversight, and Strategic Project Management. Strong hands-on capability to manage and troubleshoot technical infrastructures while maintaining a clear group-level strategic vision.

Recognized for decisive leadership, accountability, and structured governance in complex environments. Effective communicator with executive stakeholders and cross-functional teams.

Currently completing the Executive Master (MSIT) in Strategic Management of Information and Technologies at Mines Paris-PSL to further strengthen executive IT leadership and governance expertise. **Available for new opportunities from September 2026.**
